Dear Mr. Weisberg

I want to thank you for responding so quickly to my request for obtaining your books.

I am a 27 year old wife and Mother. I was not even born when President Kennedy was killed, but I have always felt some connection with him. I was three years old and vividly remember Robert Kennedy being shot. My mother and I watched it on television and I can still see her crying and crying. I have always read about the Kennedy's and been interested in them. In school my history reports were always about J.F.K. But even in my history book it said that John F. Kennedy was killed by a lone nut assasin... Lee Harvey Oswald. I wonder now if our school children are still being fed that incredible lie. During the past five years I have become engolfed in his assasination. I have read book after book and started my own library of assasination research. I have a nice collection of books started. Some of the books I agree with and some I have read just to read something about that terrible day. But the one book that I feel is the best and the closest to the facts is "Whitewash". My father in law is also a Kennedy fan and he gave me an original copy that he had. (I know that it's old because the price on it says 95 cents!!) I have read it three times and go back to it when I read a new book to see what you have said on the same subject. I want to thank you as I think everyone in my generation should, because if it wasn't for you "the Father of the Conspiracy Investigation"

we may not know about all of the fabrications and discrepancy's in this case. I admire and respect you.

I have a two year old son who can look at his picture and tell you that it is Kennedy. We were watching a series last week on P.B.S about the Kennedy's and I began to cry. They were talking about Joe Sr. crying When he heard that his son had been assasinated, and my little boy said "Nanny are you crying coz of that Kennedy" I said yes and he said "Why coz he's dead"? I said yes again and he said "Kennedy got shot by bad men" I was so proud of him and of myself for teaching him the truth. I wonder if in his lifetime he'll ever know what happened. I hope so. By the way He tells me that Kennedy is in heaven, and I know he's right

I want to ask you what people, average citizens like myself can do to keep his murder from being forgotten. In this day and age when people are more concerned with Whether George Bush had an affair or if Governor Clinton really dodged the draft How do you make people aware? Iran-Contra is never brought up Our commander and chief was a former CIA official and it doesnt seem to matter. In my state Mr. Arlen Specter seems to be on his way to another term. No one is even asking him how he could perpetrate such a lie, as

as the "magic Bullet theory" on the American public. Just as everyone seems to have forgotten what Mr. Specter did in 1964 will they forget what happened to John Kennedy in 1963? Will they forget what really happened to him?

I hope that people like yourself can keep the questions alive.

Again I admire you and I respect you immensly. I feel that we are all indebted to you

Sincerely
Paula Volansky
